

Acoustica Hearing turns heads

After more than 11 years of manufacturing and selling hearing aids in Burnaby and Surrey, Acoustica Hearing has now opened a North Shore location. At all 3 clinics they offer same day service for hearing aid sales and repairs for customers from throughout the Lower Mainland.

Siemens, one of the world's leading manufacturers of hearing aids, together with Acoustica Hearing bring you the latest innovations in hearing aid technology. These technological advancements in hearing aids mean the small behind-the ear units are almost invisible; they fit more naturally behind the ear so most hardly notice they are wearing a hearing aid and these don't plug the ears.

At Acoustica they can test your hearing and help you select and fit the best hearing aid all the same day by producing their own custom hearing products in-house, Acoustica has dramatically reduced manufacturing

John Jahanshahi & Reza Y Jahanshahi - owners

costs and they pass the savings on to the consumer. Because Acoustica makes the shells and assemble the aids on premise customer wait times are reduced, and in most cases if repairs or servicing are needed on-site technicians can do them while the customer waits.

If offering quality, value & convenience isn't enough, Acoustica's motto is "satisfaction guaranteed or money refunded".

Acoustica Hearing is located at 4564 Dawson St, Burnaby, 15232 - 32 Ave, Surrey and 2432 Marine Dr, West Vancouver.

What people are saying about Acoustica Hearing

"After buying my present hearing aids from you about 7 years ago, I recently needed regular servicing on both units. This required some parts and adjustments. You did this in less than an hour while I waited in your office ... I will definitely recommend your excellent customer service and hearing aids to anyone wanting to improve their hearing."

E.C. Weber

"I would like to express my appreciation for the service you have given me. I requested a repair on my hearing aid which was purchased from another well known company. Not only did you repair it, but did so in 20 minutes. I was in a hurry and could have come back another day. Your charge was \$250 less than the minimum quoted to be by the original supplier ... You may be sure I will be telling my many senior friends about your company and service."

Sincerely, N.A. Hansen
